

```
ea::Solver< PSOs, T,  
F, C >::generate_r
```

```
graph LR; A["ea::Solver< PSOs, T, F, C >::generate_r"] --> B["ea::generator"]
```

A diagram showing a call to the `generate_r` method of the `ea::Solver` template. The call is represented by a grey box containing the text `ea::Solver< PSOs, T, F, C >::generate_r`. A blue arrow points from this box to a white box containing the text `ea::generator`, indicating that the `generate_r` method calls the `generator` function.

```
ea::generator
```
